## Employment History

01/2017 – Present

**SapientRazorfish** – *Brisbane, Australia*

Position: Principal Engineer

SapientRazorfish is the result of the SapientNitro and Razorfish merger, both part of Publicis Groupe. Earlier in the year, I have been promoted to a manager level (Manager Experience Engineering).

Key responsibilities:

- Experience Technology lead in the Brisbane office
- Front-end development manager and liaison with the offshore teams
- Front-end design and development – *HTML5, CSS3, jQuery, Vue.js*
- Rapid prototyping
- Internet of Things development
- React Native development

07/2015 – 01/2017

**SapientNitro** – *Brisbane, Australia*

Position: Senior Interactive Developer

SapientNitro is an advertising company with offices worldwide, now part of Publicis Groupe

Key responsibilities:

- Front-end design and development – *HTML5, CSS3, jQuery*
- Rapid prototyping
- Front and back-end development – *PHP, MySQL*

10/2014 – 07/2015

**Endice Software** – *Brisbane, Australia*

Position: Senior web developer

Endice is a growing company specialized in UX design (web and software). Clients: Caterpillar, Centium Software.

Key responsibilities:

- Web architecture and back-end development – *PHP, MySQL*
- Front-end design and development – *HTML5, CSS3, jQuery*
- Web server administration – *LAMP, Debian*
- Web development consultancy and project leading

09/2011 – 09/2014

**U&CO** – *Brussels, Belgium*

Position: Founder & developer

U&Co was a one person (me) web development and hosting company, working for small to big Belgian companies. As a founder and developer, I was responsible for all aspects of managing a company and its clients.

Key responsibilities:

- Web architecture and back-end development – *PHP, Wordpress, MySQL, SOAP, API*
- Front-end design and development – *Photoshop, HTML5, CSS3, jQuery*
- Web server administration – *LAMP, Debian, Slackware*
- Web development consultancy and project leading

03/2013 – 09/2014

**Mountainview** – *Brussels, Belgium*

Position: Technical lead (Freelance contractor)

Mountainview is an emerging Belgian web strategy and development agency. I worked as Technical Lead, responsible for the supervision and research in all their web developments. Agile development.

Key responsibilities:

- Technical lead – *PHP, MySQL, SOAP, HTML, CSS, jQuery, JS*
- Web infrastructure management – *LAMP, Debian*

09/2010 – 08/2014

**Polygone Group / The Manifest** – *Brussels, Belgium*

Position: Technical director (Freelance contractor)

The Manifest was a “transversal” advertising agency, providing both offline and online solutions to international companies. Agile development (Scrum).

Key responsibilities:

- Director of the web/IT department (10 people)
- Senior analyst – *PHP, MySQL, SOAP, API, HTML, CSS, jQuery, JS*
- Technical writer (projects specifications or analysis)
- Web infrastructure management – *LAMP, Debian, Slackware*

01/2003 – 08/2011

**Capsule** – *Brussels, Belgium*

Position: Founder and developer (self-employed)

I have worked as a freelancer for almost 10 years before founding my company U&Co. Some of my long-term contracts are detailed below.

Key responsibilities:

- Web design – *Photoshop, UX, wireframes*
- Web architecture and back-end development – *PHP, MySQL, SOAP, API*
- Front-end development – *HTML, CSS, jQuery, JS*
- Web servers administration – *LAMP, Slackware*
- Web development consultancy and project leading

06/2006 – 06/2011

**Tipik** – *Brussels, Belgium*

Position: Web architect (Freelance contractor)

Tipik is an institutional and corporate communication agency.

Notable clients: several bodies of the European Union, The Council of the European Union, ...

Key responsibilities:

- Web architecture
- Websites and Newsletters Wireframing
- Technical director for several projects – *PHP, Javascript*
- Internal PHP developments
- CSS templating and expertise
- HTML & CSS trainer

- 12/2008 – 08/2010  
**My Media is Rich – Brussels, Belgium**  
Position: Front and back-end web developer (Freelance contractor)  
My Media Is Rich developed rich media solutions for large clients like Audi, The Belgian Post or Franco Dragone  
Technologies: *PHP, MySQL, HTML, CSS, Javascript, Graph API, jQuery, Wordpress*
- 04/2007 – 11/2008  
**Vitam – Brussels, Belgium**
